

We are conducting a GIS training from 21st to 8th June 2018. The course duration is 3 weeks (Monday to Friday) of full day training and practice. All successful candidates will be issued with a certificate after successfully fulfilling all the training requirements. This a very comprehensive course and will go along way in improving your skills and enhance your work outputs. We take this opportunity to invite interested persons to apply.

Course Objective

The objective of the course is to enable participants acquire a sound theoretical and practical basis in the use of the most common GIS operations. The Course emphasises on unequivocal definition of quality standards and the broadening of each participant's palette of concrete implementation possibilities.

Course Duration and Fees

The course takes three full weeks and is offered in March, April & August every year. The tuition fee excludes transport, meals and accommodation.

To qualify one **must** be computer literate with experience in current windows OS and preferably working in the field of data and information processing. Note 90 % of time is spend working and executing a GIS software on a desktop computer.

Apply: email cetrad@cetrad.org and cc to e.njuguna@cetrad.org or call us on 0725348449 during normal working hours for more details.
